

User Group Conference Call

1/17/2013

Update from state

1. Estimated Ballots on election night

Many auditors already make a prediction of turnout, but don't want add this to website.

We aren't in the business of guesstimates – the guesstimate is a bad idea.

Change legislation to require ballots to be in by election day.

Some counties take challenges out of this number.

2. EAC Survey

EAC report in DFM's EIMS is hardcoded to 4 years for some counties. If a county called DFM they may have gotten it changed to 2 years. This will be more flexible in the future.

3. FVAP Survey

VENDOR UPDATE

VOTEC

1. Testing Confirmation Card template today.
Took SOS design and added on additional features.
Vemacis will print the entire card, front and back so the county doesn't have to purchase pre-printed card stock.
2. Passed on other template requests to programmers -
ID Notice
Verification Notice
3. Intelligent mail barcode – Post Office issues set of tracking numbers, and recycles depending on level of service the county chooses.
Smaller labels may not work with barcode.
This helps a county get a bulk rate.

DFM

1. Elections Conference - June 10-14, Doubletree Hotel in SeaTac
2. Pacific - Military overseas status is not staying with OLVR records.
